9.0	<p>Housing Needs. According to the gap analysis between household and affordable units there is a shortage for households earning less than 30% MFI, for moderate to low income families there are plenty of affordable safe apartments for families to rent it is the very low to extremely low income families that are having a hard time finding safe affordable housing. The area with the highest concentration of minorities is the eastern part of the city which extends from eastside drive to the city limits making up about 70.1 % of the minority population. The WFHA is located on the east side of the city and usually has about a 10% vacancy rate. The East side area also has a large homeless population that lives in this area.</p>
------------	--

9.1	<p>Strategy for Addressing Housing Needs. The PHA always participates in the development of the consolidated plan. We also need to work on reducing the amount of time spent on unit turn around and renovations to the units. We are developing more effective maintenance policies to minimize the amount of time that a unit is off-line. The WFHA has also begun working with the Homeward Bound homeless coalition to address the needs of the homeless in our area. The WFHA also plans to write a FSS grant this year to help families living in the HA become more self sufficient and hopefully move in to fair market housing which will free up units for other low income families who can then participate.</p>
